

# Capability Statement

## Core Competencies

Customized IT Recycling Services: All Green Recycling, Inc. (AGR) manages all aspects of the IT disposition process for our clients and develop customized programs to meet their specific requirements. Providing service and data security are our paramount objectives.

Logistics: AGR's professional staff is deployed to customer locations for pick-up, packaging and loading.

Data Security Services: Customers can select guaranteed physical destruction (shredding) or complete data erasure.

Maximizing Recovery Values: AGR maximizes net recovery a variety of resale channels and customized programs such as revenue sharing and value-added services such as repair and reconfiguration.

Certified Recycling and "Chain-of-Custody" reporting: AGR pre-qualifies all downstream recycling partners to ensure that potentially dangerous materials (e.g. leaded CRT glass and batteries) are recycled properly and tracked through to their final disposition.

## Differentiators

\*All Green Recycling, Inc. embraces all the industry leading standards of R2.

\*Comprehensive and customized solutions are provided for retired computer systems, data centers, networking equipment, telecommunications infrastructure systems and mobile devices.

\*These services allow local, state and federal government agencies to meet or exceed their responsibilities to protect sensitive data and the environment at the end of the electronics product life-cycle.

\*The All Green Recycling Foundation ([www.agrfoundation.org](http://www.agrfoundation.org)) provides training and employment opportunities to challenged workers.

\*AGR is a Nationally Certified Woman-Owned Business.
