

## **ALL GREEN** PRECIOUS METALS RECOVERY

---

*Scrap Circuit Boards to Conflict Free .9999 Pure Gold*

# SCRAP CIRCUIT BOARDS

CONFLICT FREE

(BEFORE)

(AFTER)

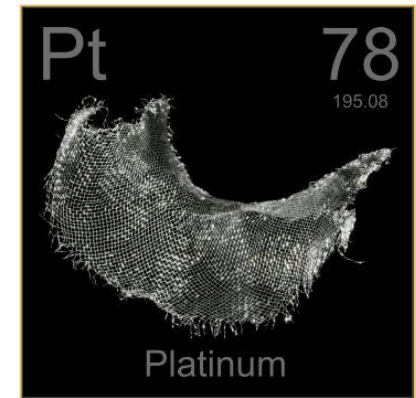

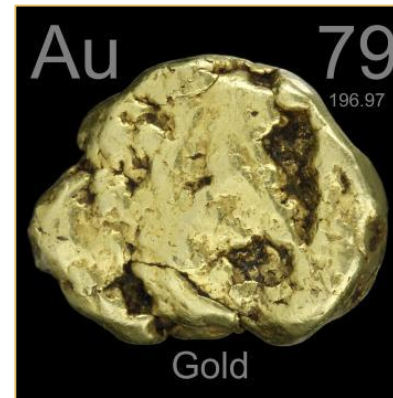

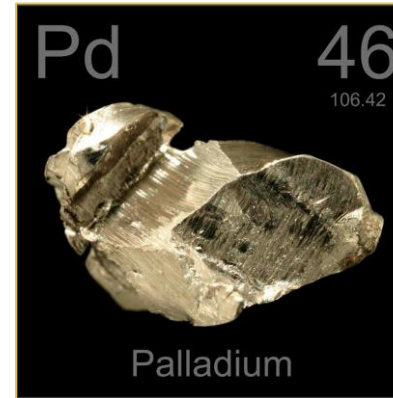

**.9999%**

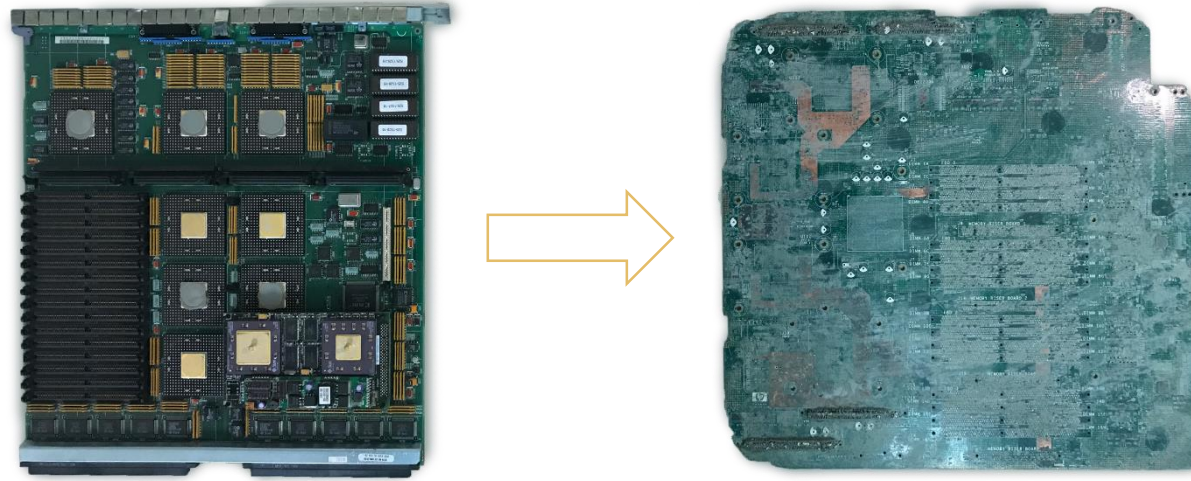

PURE GOLD

# PRECIOUS METAL RECOVERY

- Palladium
- Gold
- Platinum
- Silver
- Copper

## THE NEW WAY

---

Many have tried to change the way e-waste is processed. We have succeeded and changed the process.

## BETTER THAN SMELTING

---

More sustainable than the industry standard of Overseas Smelting.

## RETAINS THE GOLD

---

Gold contained in circuit boards represents 80% + of the circuit boards value.

# BENEFITS

## CONFLICT FREE

---

Gold and Silver are refined “Conflict Free” in house to .9999 purity

## PATENT GRANTED

---

Our own Intellectual Property (IP) patent avoids the use of hazardous chemicals such as cyanide.

## CLOSED LOOP

---

All Green is operating a sustainable, closed loop, environmentally, safe precious metal recovery system.

## MODULAR DESIGN

---

The modular design can be deployed regionally, close to origin of circuit boards for recycling.

## WIDE USE PROCESS

---

Our process can be used for other precious metal bearing materials.

## LOW CAPITAL

---

Our process has low capital requirements compared with smelting operations.

# AGR PROPRIETARY TECHNOLOGY

---

*Our new patented technology for precious metals recovery has a higher net recovery and shorter turn around time compared to the current industry standard practice of overseas smelting.*

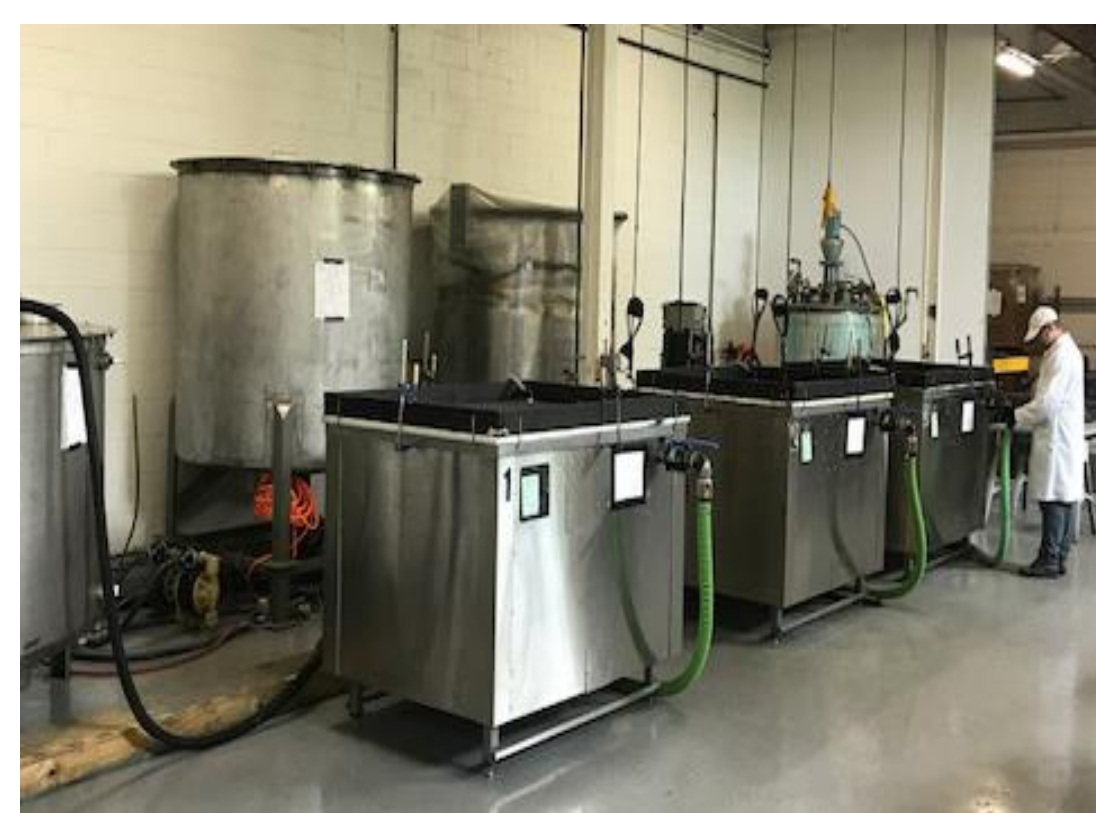

Eliminate multiple “middle men” with our One Stop Solution (higher margin retained)

---

No Air Emissions (avoiding smelting) or other discharges

---

Conflict Mineral Management and Retains Jobs in USA.

# Patent

## REDUCTION OF WEIGHT

---

Concentration of all the precious metals allow us to process less than 30% of the original weight

## NEW DEVELOPMENT

---

Producing .9999 Gold and Silver

## MOTHER LIQUID

---

AGR perfected a water soluble leach that is recyclable & reusable  
Continuous flow of liquid by AIR pumps

## NEW DISCOVERIES

---

Additional trade secrets

## COPPER RECOVERY

---

We are NOW recovering 100% pure copper

## INTERNATIONAL PATENT BEING FILED

---

Reducing process time by greater than 75%

# BENEFITS

- No time to market
- Have customers in place
- Circuit Boards readily available
- International Interest in AGR
- Proven Technology
- Experienced team in place

Approximately **70-80%** of total U.S. e-waste generated is not recycled but landfilled or exported.

For every **1 million cell phones** that are recycled, **35,274 lbs. of copper**, **772 lbs. of silver**, **75 lbs. of gold**, and **33 lbs. of palladium** can be recovered.

## SMARTPHONE INCREASE

---

Approximately  
350,000 mobile phones are  
disposed of each day, that's  
**\$200 Million dollars in  
Gold** alone according to the  
EPA

## RECYCLING GROWTH

---

50 million metric tons  
of e-waste are  
disposed of worldwide  
every year

## CIRCUIT BOARDS are more valuable than mining ore

---

One ton of circuit boards  
are estimated to  
contain as much as 800  
times more gold than one  
metric ton of ore

# AN ALTERNATIVE TO SMELTING

*Electronic scrap is the fastest growing waste stream in the U.S. and worldwide, currently dominated by large smelting operations in Europe and Asia.*

**POLLUTION**

**HIGH CARBON  
FOOTPRINT**

**EXPORTS VALUABLE  
COMMODITIES**

# EXPERIENCED MANAGEMENT TEAM

---

All Green assembled an Experienced Management team that is providing an “urban mining” solution and is producing .999% conflict-free gold without smelting or cyanide in North Carolina.

# THE FIRST AND ONLY CERTIFIED B CORP IN CHARLOTTE, NC

This world wide 3rd party certification establishes All Green Recycling Inc. to be part of only 2000 companies globally to have this distinguished honor. B Corps are for-profit companies certified by the nonprofit B Lab to meet rigorous standards of social and environmental performance, accountability, and transparency. Recently All Green Recycling Inc. and its Precious Metals Recovery System (AGR) was ***“Honored as Best for the World for Environment and Creating Most Positive Environmental Impact”***. The study was based on an independent, comprehensive assessment administered by the nonprofit B Lab [www.bthechange.com/bestfortheworld](http://www.bthechange.com/bestfortheworld)

[www.bcorporation.net/community/all-green-recycling-inc](http://www.bcorporation.net/community/all-green-recycling-inc)

# **ALL GREEN** is the **FUTURE** for conflict free **Gold Recovery.**

---

*We have completed the required technology,  
equipment and process development, have customers  
ready and are positioned for rapid growth.*
