## Stories of Impact

**In order to show our FCS supporters the life changing impact of their help and donations we will begin highlighting stories of those who have benefited most from your help.**

When 18 year old, "Emily" came to FCS, the Department of Social Services had taken her into care away from her father who had sexually molested her for 11 years. Emily was pregnant with her boyfriend's baby and was not able to get the care or proper nourishment she needed when the DSS referred her to our Maternity Program. During her stay, Emily was provided with food, shelter, good prenatal care, counseling and parenting classes. She delivered a healthy baby and went to live with the father of her baby who had successfully secured employment and housing, and could provide a safe environment for client and their baby. This is one of the many success stories that your donations have made possible. This is the real impact that your help provides to those in desperate need of care and comfort.
